# C-shipping

An important piece of your transportation puzzle

### C-Shipping transport possibilities

C-Shipping was founded in 2005 and started out as a forwarding company. However, due to changing circumstances in the container market, we soon established ourselves as a NVOCC using our own equipment.

Today, we specialize in Multimodal transport with emphasis on door to door deliveries of import and export cargo from Russia and Europe. We are also able to offer transport solutions to and from China, the Far East, India and the US.

Our head office is located in Denmark with branch offices in Russia, Germany and Holland. Furthermore, we employ several well reputed forwarding agencies worldwide. Combined with our cooperation with several international and domestic shipping lines, our extensive network of offices and agents enables us to offer low rates and a fast and reliable service. We are able to provide you with a one stop strategy that makes it possible to talk to the same person no matter where in the world you book.

C-shipping takes pride in having well educated and service minded employees, all of whom have many years of experience in shipping. This helps to ensure a high standard of service and also gives us the possibility to offer transports of special cargo requiring the use of reefers, tank containers etc.

### Warehouse Service

C-Shipping is able to provide you with a complete warehouse solution from several locations in both Europe and Russia. We can arrange for safe and secure repackaging of any type of goods into trailers or containers. We are also able to store containers, should the need arise.

### Out of gauge cargo

We are able to arrange for transportation of several varieties of out of gauge cargo in Europe and Russia. Cargo can be delivered in flat rack or open top units as per your request and break bulk is also possible. Regardless of your needs, we will be able to offer you a solution!

### C-Shipping Forwarding

As a response to an increasing amount of requests for door-to-door deliveries in Russia, C-Shipping Forwarding was started in 2008. It is an independent forwarding company with offices in Saint Petersburg, and it specializes in inland transports using rail wagons, platforms and trucks. C-Shipping Forwarding can also offer complete package deals with customs clearing using independent customs brokers. In combination with the service provided by C-shipping, this enables us to arrange any door-to-door delivery quickly and without problems.

I hope that you will consider C-Shipping as your reliable partner for your next transportation assignment. We guarantee the best possible service with full confidentiality on all requests.

We look forward to be of service to you

Regards

Claus Reventlow Mourier  
Director of C-shipping"
